

# KRIPTO ENTUZIJASTI ADVERTISING PRICE LIST

# ABOUT US

In the world of cryptocurrencies, there is a group of enthusiasts whose passion for discovering new projects trumps all other motives. They are researchers, analysts, and investors – but above all, they are visionaries. Their pursuit of the next big thing in the crypto world is not just a mere desire for profit; it is a deep-rooted need for change, innovation and progress.

For these enthusiasts, the process of discovering new crypto projects starts with a white paper. It is their holy text, the beginning of a journey to understand the vision and technology behind a new coin or blockchain platform.

Through thorough research, they understand every aspect of the project – from its purpose and goals, to the team developing it and the technological innovations it offers.

But for these enthusiasts, research is not just a passive activity. They are active participants in the development of the crypto ecosystem. By participating in an early stage ICO or IDO, they not only support the projects they love, but also become part of their community. Their stake is not just money; it is an expression of their faith in the future that these projects promise.

Risk is always present in the crypto world, but for these enthusiasts, the reward is worth it. They see beyond current prices and market fluctuations; they see the potential to create real change. Their passion guides them through challenges and obstacles, encouraging them to persevere in their beliefs and visions.
